

Leebridge Group

Your Bridge to Financial Success

Leebridge Group Chartered Accountants is a dynamic and progressive accountancy practice with a financial service history exceeding 35 years.

At Leebridge, we are known for superior technical expertise and the “can do” approach of our dedicated team. It is our commitment to delivering quality solutions that ensures our clients receive the best possible outcome, every time. We believe the success of our practice is built on the high-level of customer service we provide through ongoing personalised attention; we understand that you are unique and we take the time to properly assess your financial goals.

We provide specialty services in the following areas:

- Tax
- Superannuation Services
- Business Advisory
- Accounting
- Financial Planning.

In addition, we offer vast experience and knowledge across many diverse industry sectors, such as:

- Aged Care & Retirement Living
- Hotels and Gaming
- Construction & Development
- Property Investment
- Health
- Real Estate
- Manufacturing.

Our services and experience are further enhanced by our national and international affiliation with KS International Limited; we are presently one of 66 member firms who, in total, span across 100 countries globally.

In an election year, complex laws and shifting financial benchmarks are creating a challenging economic environment. We, at Leebridge Group, want to work with you to simplify these processes and provide you with a clear pathway forward.

Our objective is to bridge the gap between technical knowledge and your financial aspirations; we aim to deliver accurate advice and innovative solutions, so you can achieve long-term security. In partnership, let our experience guide you to a better financial future.

We also offer an initial ‘no fee, no obligation’ meeting giving you the opportunity to freely discuss your situation with us, so we can determine the best way to help you.

For more information, visit leebridgegroup.com.au or call (03) 9854 3100 for a confidential discussion.
